

How to access your hyperWALLET account

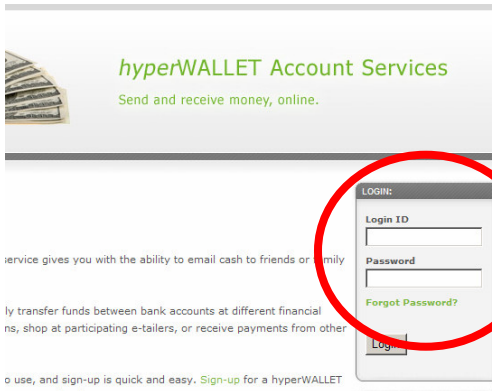

Accessing your hyperWALLET account is not available through MemberDirect Internet Banking at this time. We are currently working to restore the link in Internet Banking to the hyperWALLET™ site.

Until the hyperWALLET link is restored, the following steps can be used to access your hyperWALLET account.

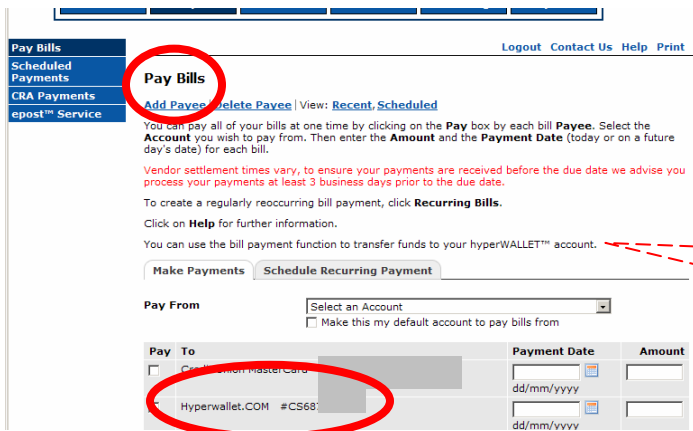

1. Go to www.hyperwallet.com
2. Click on the login button on the home screen.

3. You will then be prompted to enter your Login ID and password.

4. If you cannot remember your Login ID, your ID number will be listed as a vendor in MemberDirect under pay bills. The number you need, will begin with CS (ex CS123456789). Once you are logged in, transactions are processed as before.

Use the bill payment function to transfer funds to your hyperWALLET account.
